

This is what 30,000 scanned pages looks like.

WDSSL's document scanning service is done using state-of-art hardware for any file or document type. We utilize our ability to easily convert large amounts of documents into portable digital files.

We specialize in the following:

- **Paper Scanning •Legal Document Scanning •Form Scanning •Data Entry**
- **Photographic Scanning •Large Format Scanning**
- **Engineering Drawings •Plans**

Format & Image Delivery

- Paper Scanning – Book Scanning (B&W, Gray-scale, Colour)
- Optical Character Recognition (OCR)
- Scanned images and index files delivered on CDs, DVDs, portable hard disk (HDD), FTP or Online Repository

CDs can hold up to 700 MB of data or about 10,000 pages.

DVDs can hold up to 4.7 GB of data or about 70,000 pages.

We can scan to TIFF, JPEG, GIF, BMP or PDF, dependent on clients' specifications. OCR Technology option is also available as your chosen format. This enables our clients to edit, search, and convert the digitised files to a Word, Excel spreadsheet or ASCII format.
